Custom Modern Interior Doors

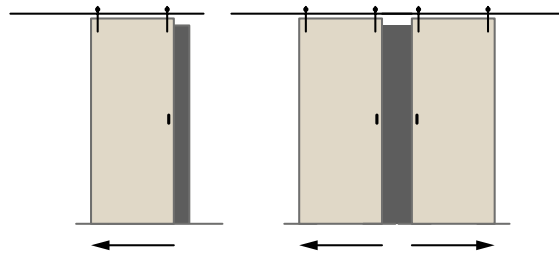

The beauty of natural wood combined with man-made, environmentally-friendly veneers culminates in the alluring Ecoline collection. Exquisite European craftsmanship and premium technology seamlessly blend to actualize the iconic, sleek, minimalist Ecoline designs that serve as the foundation of any modern home.

Construction

ENGINEERED CORE STRUCTURE

Our state of art engineered core structure comes with enhanced stability to provide great performance, enhanced soundproofing, and durability for years to come.

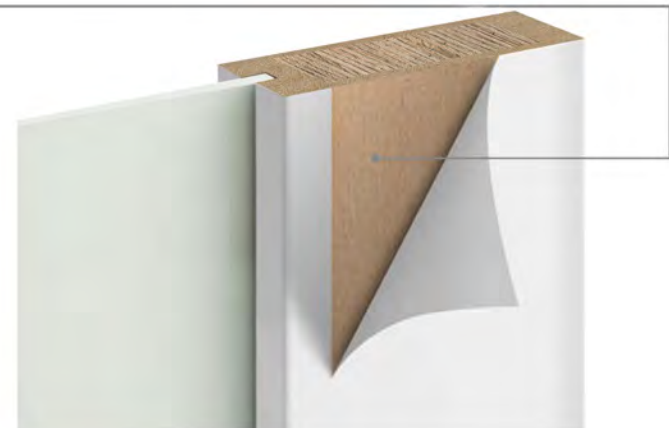

ENGINEERED WOOD STILE

Our stiles are made from engineered solid wood pieces to provide enhanced stability to prevent warping and to provide stable core to mortise concealed hinges and magnetic locks into a slab.

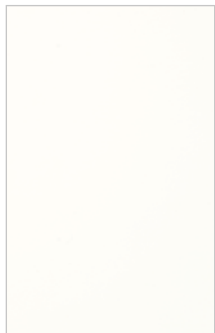

PRODUCTION QUALITY

Our veneering technology uses special high quality manufacturing processes combined with the finest adhesive system which eliminates common issues of peeling often experienced by other manufacturers. Our doors come with a smooth and uniform surface.

11 Chocolate Oak

Hardware

Hardware: Magnetic Lock

Our Italian-style magnetic locks are offered on all of our Luxeline interior doors. These locks are known for having a noticeably smooth operation and minimalistic styles. With an ABS polymer receiving latch, these locks offer a quiet, soft feel upon closure. With hardware selections from our Luxeline handles and Linea Cali, there are many selections to choose from.

Available in 4 colors: Gold, Chrome, White, and Black

Concealed Hinges

CEMOM
Concealed Hinge

Cemom Concealed Hinge

Fully adjustable and hidden, our concealed hinges are hidden so well that the only time you will notice them is when admiring the technology behind them. Our Cemom concealed hinges are a high quality, durable concealed hinge perfect for any project.

Glass Options

- **Safety** - The layered construction combined with the durable foil layer allows the glass to retain its cohesive structure if broken, decreasing chances of injury
- **Hygienic** - due to this smooth surface on both sides, microbes cannot adhere to it
- **Easy to keep clean** - will not discolor over time and leaves no streaks when cleaning
- **Resistant to household chemicals** - can use household cleaners
- **Resistant to scratches** - Our glass is very smooth and hard making it scratch resistant during cleaning
- **Sounding** - Significantly reduces sound traveling due to the layered construction of the glass
