# Custom Modern Interior Doors

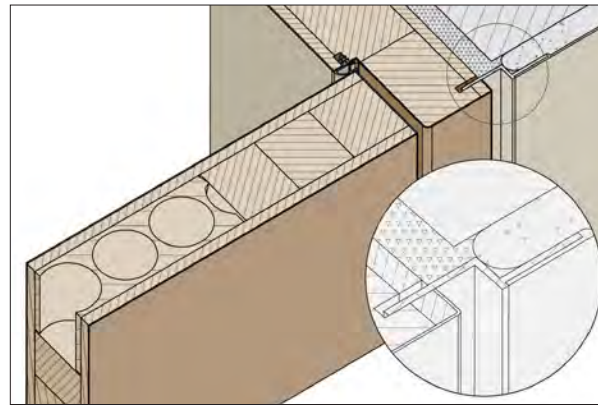

Our Luxeline interior doors offer superior durability and performance due to the European construction method and technology used in these doors. We are proud to offer a variety of different design selections that can be paired with a large selection of wood veneers and finish options. With your choice of Mahogany or Oak veneers or lacquered MDF in many different stains, these doors are great for many different projects. Our modern designs fit perfectly in modern and contemporary architecture.

Matching Jamb & Casing

White Jamb & Casing

Another simplistic model in our Luxeline collection, the SA11 model is an additional flush construction door that is very minimalistic in style. This modern interior door features horizontal wood grains. To really bring out this wood texture in the door, select an oak or mahogany natural wood veneer complete with a stain or paint finish. Additionally, select from your choice of our four frame and casing options: frameless aluminum, trimless, matching or white casing. Paired with our Cemom concealed hinges available in four different finish options as well as your choice of hardware selection in a variety of different finishes.

Matching Jamb & Casing

White Jamb & Casing

The SA12 interior door model in our modern collection utilizes opposing grain patterns to add a beautiful contrast to the door. Highlight this grain texture by selecting a natural wood veneer in a stain or paint finish of your choosing. To create a more traditional finished appearance to this door, select frame and casing in a matching finish or in white. For a modernized look, select a trimless or aluminum frameless option. Finalize this design with our concealed hinges, modern hardware options and magnetic latching system.

White Jamb & Casing

This Luxeline modern interior door model showcases a v-grooving detail that still provides a simplistic, contemporary design with an additional layer of design. Choose from a natural wood veneer or our MDF option to achieve the look you desire. Select from our four different frame and casing offerings including matching or white casing, trimless or aluminum frameless options. Pick from gold, white, black or chrome finishes for your concealed hinges as well as a large selection of finishes for your choice of hardware.

Trimless

Matching Jamb & Casing

White Jamb & Casing

This modern interior door model showcases a combination of horizontal and vertical grain patterns with the addition of horizontal v-grooves. Available in both natural wood veneers and MDF, our Luxeline interior doors come in a plethora of finish options and colors as well. For a more traditional framed in style, our white or matching frame and casing options are a great choice. If you are looking for something more minimalistic and modern, our trimless or frameless aluminum options are great for that. Curated with the highest-quality magnetic latching mechanisms and concealed hinges, our modern interior doors are the perfect fit for superior quality.

Matching Jamb & Casing

White Jamb & Casing

The S717 model in our modern interior door collection highlights our chevron pattern that is flanked by two panels of vertical grain patterns running along the left and right sides of the door. It offers a unique design that is sure to be a conversation starter in any home. To maintain an understated design, select our frameless aluminum or trimless framing options. To curate a more traditional overall design, select white casing or matching casing for a completed look. Always paired with our concealed hinges and magnetic latching mechanisms for a superior look and feel.

Matching Jamb & Casing

White Jamb & Casing

The IB30 model highlights v-grooving combined with horizontal grain patterns as well as thin metal inlay inserted in all of the v-grooves. By using metal elements in the door combined with wood grain details, these doors become the perfect fit for an industrial, contemporary style of architecture. Select from our MDF or natural wood veneer options and your choice of finish for the perfect look. For a more seamless appearance, our metal inlay is offered in four different finishes to correspond with our hardware finishes. Our Luxeline interior doors come standard with our magnetic lathes and concealed hinges to offer you a superior design with a softer close.

Trimless

Matching Jamb & Casing

White Jamb & Casing

Our GIL3 modern interior door model showcases a thin, off-centered glass panel that offers a great combination of light and privacy. The use of a glass panel on your interior doors can help allow the natural light to flow from room to room inside of your home. Choose between our mahogany or oak veneers or our MDF option paired with the finish of your choice. For more privacy, choose between our four safety glass options for this model: satinato, clear, smoke and black. Our superior craftsmanship can be seen and felt in these doors, especially with our concealed hinges and softer closing magnetic latches.

# Construction

- **STILES AND RAILS:**

Solid engineered wood stiles and rails that are 3-6/16" minimum - attached to the core with matching edges

- **CORE:**

RT8 natural fiber wood board - eco-friendly and recyclable- decreases sound traveling

- **CROSSBAND:**

MDF - Fiberboard of medium density

- **FACE VENEER:**

Available in Mahogany, Oak or MDF with a large selection of designs

- **ADHESIVE:**

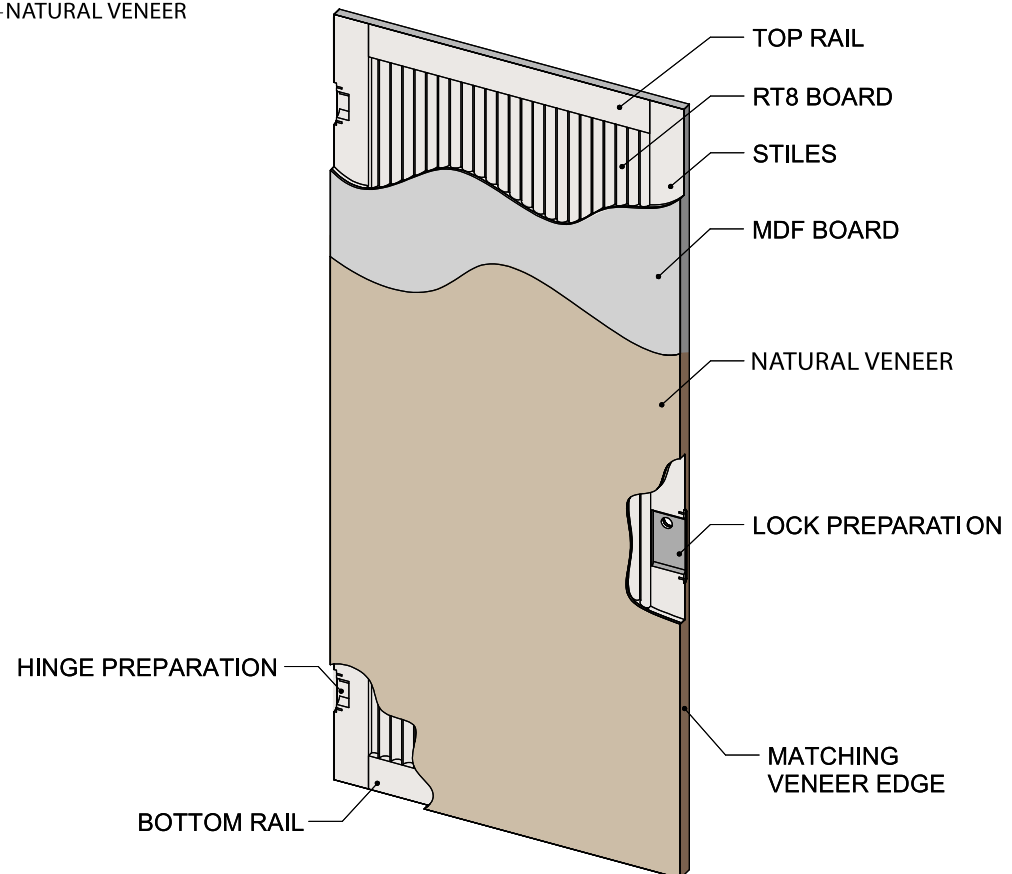

Moisture-proof, D3 adhesives that do not have any added urea-formaldehyde

- **FINISH:**

Our factory-finish is a water based; UV cured finish that does not contain any added urea-formaldehyde

## Solid Core Structure - Modern Interior doors:

Our modern interior doors are constructed with a solid core structure. Our wood material offering consists of a solid wood center surrounded by a natural, beautiful 1/4" wood veneer. Our MDF interior doors consist of a RT8 board in the center surrounded by MDF/plywood and a 1/4" natural veneer on the exterior side. Both solid core options create beautifully crafted modern interior doors.

# Door Types

## Swinging

The Luxeline Collection offers a range of options for swinging doors. The standard hinges can be upgraded for an additional fee, while the standard magnetic latch lock or single bore (levers sold separately) are included, but can be customized at an extra cost. You can also choose from a variety of frame construction options.

## Bifold

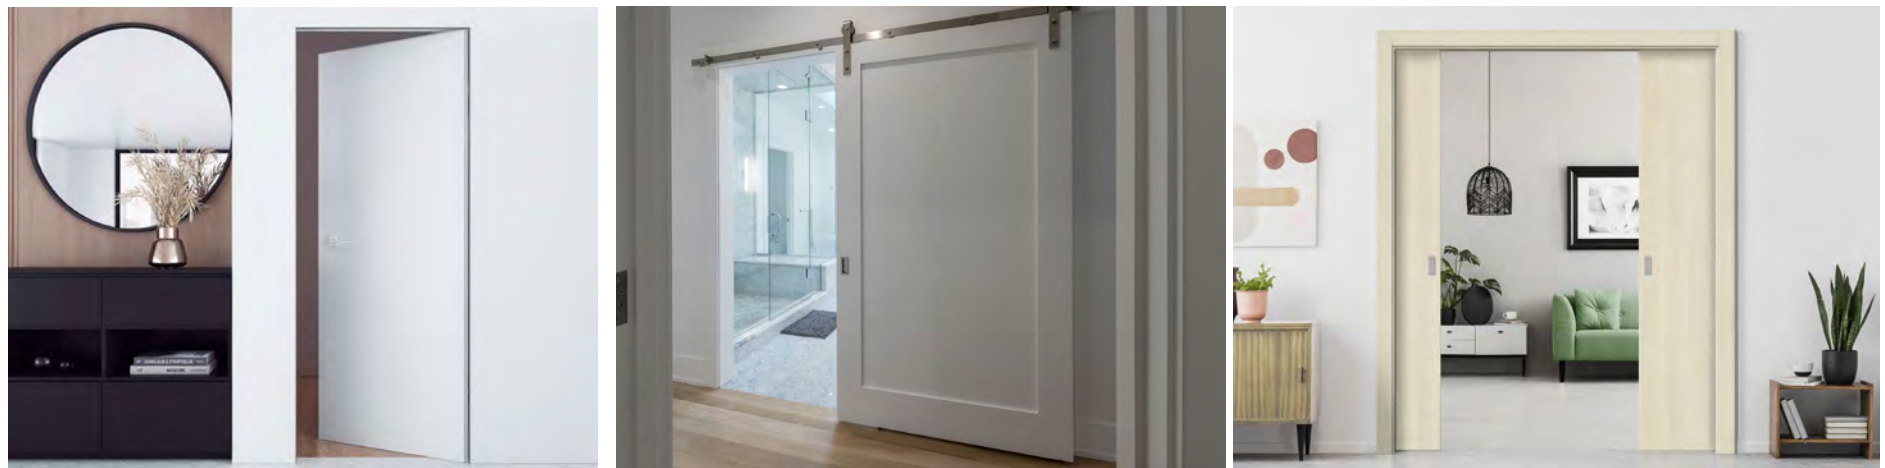

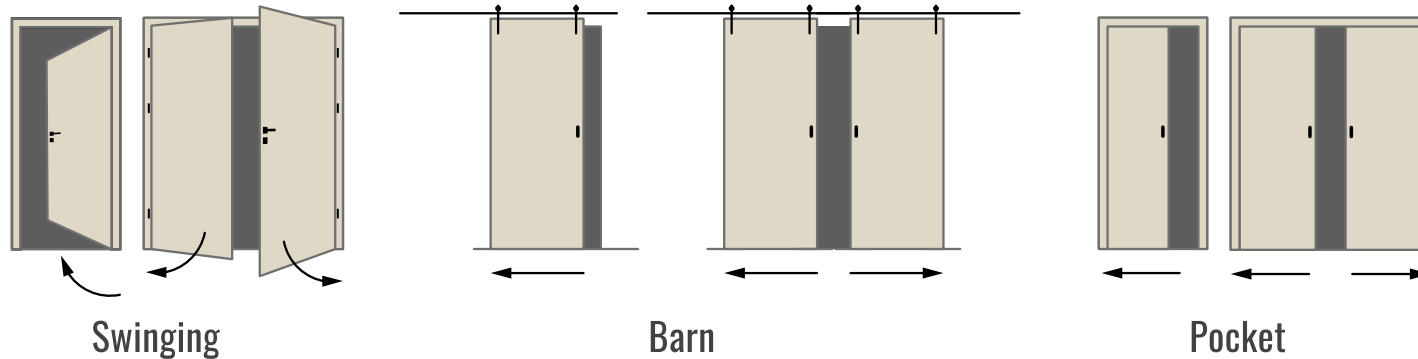

The Bifold door from our Luxeline Collection comes with standard hardware and a knob. An additional option for a matching cased opening is also available at an extra cost. Choose from our available options to create the perfect look for your space.

## Barn

The Barn door in our Luxeline Collection comes with the option of a separate barn door track and hardware (which are sold separately), or the possibility of custom door preparation using your own hardware. Which will require a template for review.

## Pocket

The Luxeline Collection's pocket door does not include hardware, which must be purchased separately. Custom door prep using your own hardware is an option and requires a template for review by us.

# Wood/Finish Options

Our Luxeline interior doors are made with high-quality, natural mahogany or oak wood veneers. With a variety of customization options for these wood veneers including metal design elements and a variety of different finishes, these doors are a great fit for many modern and contemporary homes.

## RIFT-CUT MAHOGANY WOOD VENEER

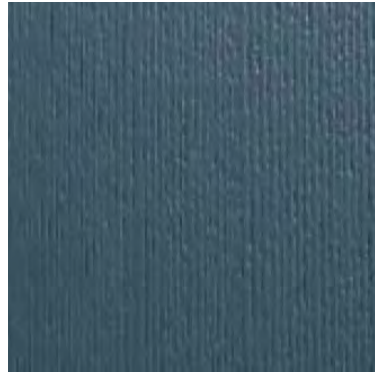

## RIFT-CUT OAK WOOD VENEER

# Painted Doors

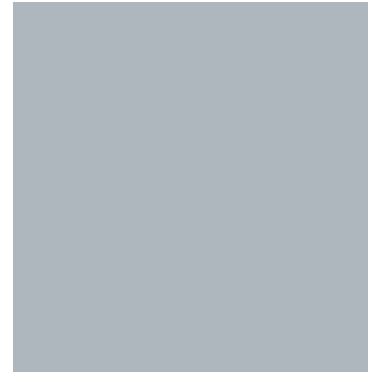

Painted doors are clad on both sides with 6mm thick MDF and painted directly onto the MDF. Lacquering cycle: 1 x primer, Sanding, 1 x primer, Sanding, Top Coat.

## Painted Wood

*(preserving wood texture)*

The option for painted Luxeline doors allows for a large selection of different color options to match your home. This selection will provide you with the color you are looking for but still allow you to see the beautiful wood grain of our doors.

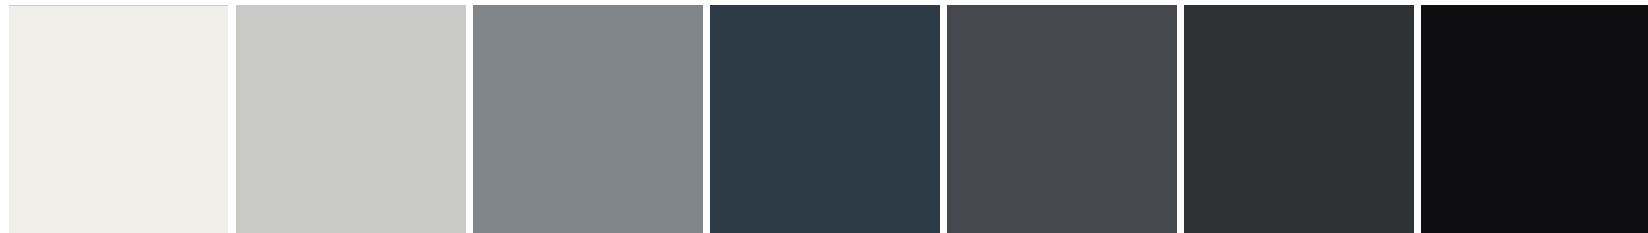

## Lacquered MDF

*(high end painted doors with smooth finish)*

Lacquered finish options for our MDF doors are great for a smooth finish to our doors. Finished with MDF and HDF boards, this option provides a finish with no texture in a variety of different colors.

# Hardware

## Hardware: Magnetic Lock

Our Italian-style magnetic locks are offered on all of our Luxeline interior doors. These locks are known for having a noticeably smooth operation and minimalistic styles. With an ABS polymer receiving latch, these locks offer a quiet, soft feel upon closure. With hardware selections from our Luxeline handles and Linea Cali, there are many selections to choose from.

Available in 4 colors: Gold, Chrome, White, and Black

# Concealed Hinges

## Cemom Concealed Hinge (standard option)

Fully adjustable and hidden, our concealed hinges are hidden so well that the only time you will notice them is when admiring the technology behind them. Our Cemom concealed hinges are a high quality, durable concealed hinge perfect for any project.

CEMOM

## Tectus Concealed Hinge (upgraded option)

We utilize only the finest concealed hinges from TECTUS®, a German company that produces extremely high-quality hinges. Adjustable in 3-dimensions, these hinges offer superior precision, performance, and control for premium doors.

# Glass Options

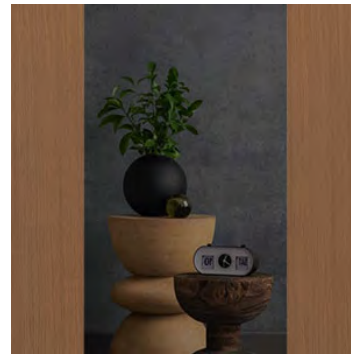

- **Safety** - The layered construction combined with the durable foil layer allows the glass to retain its cohesive structure if broken, decreasing chances of injury
- **Hygienic** - due to this smooth surface on both sides, microbes cannot adhere to it
- **Easy to keep clean** - will not discolor over time and leaves no streaks when cleaning
- **Resistant to household chemicals** - can use household cleaners
- **Resistant to scratches** - Our glass is very smooth and hard making it scratch resistant during cleaning
- **Sounding** - Significantly reduces sound traveling due to the layered construction of the glass
